The screenshot shows the Postman application interface. In the top navigation bar, there are links for Home, Workspaces, and API Network. A search bar is located at the top center. On the right side of the header, there are buttons for Invite, Settings, Notifications, and Upgrade.

The main workspace is titled "My Workspace". It features a sidebar on the left with sections for Collections, Environments, History, and Flows. The "Environments" section is currently active, showing an environment named "OnlineStore".

In the center, a collection named "New Collection" is expanded, showing a single item: "GET OnlineStore". This item has a sub-item "GET http://localhost:3000/products/1". The URL "http://localhost:3000/products/1" is highlighted with a blue border.

The request details panel shows the method "GET" and the URL "http://localhost:3000/products/1". Below this, tabs for Docs, Params, Authorization, Headers (6), Body, Scripts, and Settings are visible. The "Params" tab is selected, showing a table for "Query Params".

The response panel at the bottom displays the status "404 Not Found" with a response time of "3 ms" and a size of "282 B". It includes tabs for Body, Cookies, Headers (7), Test Results, and a timer icon. The "Body" tab is selected, showing a JSON response:

```
1 {  
2   "error": "Товар не найден"  
3 }
```

At the bottom of the interface, there are icons for Cloud View, Find and replace, Console, Terminal, Runner, Start Proxy, Cookies, Vault, Trash, and a Help button. The "Files" section is labeled "BETA".

The screenshot shows the Postman application interface. On the left, there's a sidebar with sections for Collections, Environments, History, Flows, and Files (BETA). The main workspace is titled "My Workspace". At the top, there are tabs for "New" and "Import", and a search bar for "Search Postman". The top navigation bar includes links for "Home", "Workspaces", "API Network", "Invite", "Settings", "Upgrade", and "No environment".

In the center, a collection named "OnlineStore" is selected. A specific POST request is being viewed, targeting the URL `http://localhost:3000/products`. The request method is set to "POST". The "Body" tab is active, showing the raw JSON payload:

```
1 {  
2   "name": "Планшет",  
3   "price": 25000  
4 }
```

The "Headers" section lists 8 items. Below the request details, the "Test Results" section shows a successful response with a status of "201 Created", a duration of "16 ms", and a size of "298 B". The response body is displayed as:

```
{ } JSON ▾ ▶ Preview ▾ Visualize ▾
```

```
1 {  
2   "id": 1771326993054,  
3   "name": "Планшет",  
4   "price": 25000  
5 }
```

At the bottom of the interface, there are icons for Cloud View, Find and replace, Console, Terminal, Runner, Start Proxy, Cookies, Vault, Trash, and AI.
